Public Records Policy

Revised July 2, 2021

The Lee County Supervisor of Elections is committed to providing you with access to information that allows you to hold government accountable. To provide full and prompt compliance with Florida’s public records laws, this office has established the following policy when fulfilling public records requests on behalf of the Supervisor of Elections.

Florida law provides that public records are all materials made or received by an agency in connection with official business used to perpetuate, communicate or formalize knowledge.

Florida's Constitution and public records laws provide a right to inspect or copy such records unless specifically exempted by the Constitution or by Florida statute.

Public Records Request Procedure

You may request a public record by contacting the Public Records Custodian using any of the following methods:

Contact us if you have any questions at (239) LEE-VOTE (533-8683)				

You are not required to provide your identity or purpose for seeking the record. We will acknowledge your request as soon as possible and may provide one or more of the following initial responses:

- A statement that the Lee County Supervisor of Elections is initiating a search for available records,
- An inquiry to clarify the scope of the request when more information is necessary to initiate a search,
- A statement that the Lee County Supervisor of Elections does not have the requested records,
- Referral to the proper custodian of the requested records,
- An estimate of time required to fulfill the request,
- An estimate of fees associated with processing the request.

Duplication and Materials Costs

If documents are requested in hard copy or electronic format, they will be provided upon payment of the actual duplication and materials costs when applicable. Please refer to our **Voter Data and Records Fee Schedule** for prices and more information. You can also find our fee schedule and **Voter Data Request Form** at www.lee.vote.

Special Service Charge

A special service charge will be imposed pursuant to Section 119.07(4)(d), Florida Statutes, if the nature or volume of the requested public records requires extensive use of information technology resources and/or extensive clerical or supervisory assistance by agency personnel and also includes the safeguarding of agency personnel records. This charge will be separate and in addition to actual duplication and material costs.

Clerical or supervisory assistance includes searching for and/or locating the requested record, reviewing records for legally exempt or confidential information, withholding or redaction of such exempt or confidential information, and preparing, copying, and re-filing of the requested records.

If multiple agency departments are involved, the special service charge will be based on the aggregate amount of time expended by all personnel and information technology resources when applicable.

Cost Estimate and Payment

Upon receiving requests for public records, if applicable, the Lee County Supervisor of Elections will provide an itemized estimate to the person initiating the request. The estimate will include the hours required, the estimated service charge for extensive labor, and actual duplicating or other material costs. If upon receipt of an initial estimate of charges, a request is changed or otherwise limited in scope (limiting individuals or agency departments); for example, the person initiating the request will be provided with a new estimate of charges.

The Lee County Supervisor of Elections requires advance payment of 75% (seventy-five percent) of the estimated charges prior to undertaking producing the requested records. We will not review or redact records until we receive advance payment of the estimated charges. If the actual time required to process the request exceeds the initial estimate, the actual cost must be paid before the records are released.

Once the records request is completed and the requestor notified, if the requesting party subsequently advises that they will not need the records, the Supervisor of Elections reserves the right to bill for the difference between the deposit, actual staff hours and cost of producing the public records. The requesting party will not receive a refund for the initial deposit.

Reducing Costs and Limiting Charges

Labor costs can be reduced significantly if requests include keywords instead of open-ended terms such as “any and all documents or emails.” Similarly, narrowing a request to certain individuals or a particular date range can greatly reduce the use of extensive labor.

Exempt/Confidential Records or Information

There are times when it is appropriate to deny or limit access to a record. When necessary, we will provide the requestor with the specific statutory exemption that precludes or limits access to a record. Some records, or parts of a record are exempt from disclosure; others are exempt and confidential and, therefore, do not have to be made available for inspection or copying.

Prior to fulfilling a records request, we will review all responsive material for any exempt or confidential parts that must be redacted or cannot be disclosed. For example, the following is confidential and exempt from disclosure under Florida law:

- A voter registration applicant's or voter's social security number, driver license number, and Florida identification number
- All information concerning preregistered voter registration applicants who are 16 or 17 years of age
- The signature of a voter registration applicant or a voter is exempt from the copying
